SKILLS

Web: React.js, Express.js, HTML, CSS, Flask, Django, Javascript

Languages: Cpp, Python, Java, C   **Databases**: MongoDB, MySQL

Platforms: GitHub, Firebase   **Tools**: Git, Canva, Postman

EXPERIENCE

Digiidunia   Jun 2023 – August 2023
Web Developer Intern

- Involved in designing and building the client side functionalities of the website using React.js and CSS.
- Developed the website server using Node.js and Express.js, and integrated MongoDB for database functionality.

PROJECTS

Portfolio Website | *React.js, CSS*

- A personal portfolio website for showcasing collection of my skills, works, including projects.
- GitHub | Web app

EcoSavvy | *React.js, CSS (Tailwind), CNN (ML Model), Django, Mysql*

- EcoSavvy uses computer vision to enable efficient waste management and recycling practices.
- It is based on ML model built using CNN which segregates waste into 11 different classes.
- It is trained over 8000 data samples to segregate the waste in corresponding class.
- GitHub | Demo

SmartLegalX | *React.js, CSS, Flask, Express.js, Node.js, Llama2 7b, t5 model, MongoDB*

- Developed a chatbot to provide instant answers to user's queries related to legal documents and integrated a WhatsApp bot to broaden accessibility, enhance scalability, and facilitate marketing campaigns.
- Implemented a user-friendly form based system for generating legal documents, enhancing accessibility.
- Users can upload any PDF file and receive a summarized version of the legal document for simplified understanding.
- Multilingual support and a resource hub featuring videos and blogs on essential legal documents.
- GitHub

No Spam | *Python, ML, Pickle, Pandas, Streamlit*

- NO SPAM is an advanced machine learning-based Spam-Sms-Classifier tool that accurately categorizes text messages as spam or not spam.
- GitHub

PhishNet | *React.js, CSS, Flask, Express.js, MongoDB, Python*

- PhishNet automates the phishing domain detection and calculates probability scores based on website similarity.
- It implements Typo Squatting and utilizes a Chrome Extension to detect whether the current domain is safe or not.
- GitHub

EXTRACURRICULAR ACTIVITY

- Won 1st prize trophy in THE GREAT ESCAPE, which consisted of multiple rounds and levels, among more than 50 teams in 2023.
- Played Chess at DSO LEVEL in 2019 and 2020.
- Won 1st prize in the DESICIVE DEFRAUDERS event conducted in 2023.

COMMITTEES AND CLUBS

Nazrana   November 2019 – October 2020
Core Team Member

- Involved with organizing and planning multiple events and organized the biggest fest of the college.
